SUMMARY

Operations leader with 25+ years of international experience across logistics, warehousing, supply chain, facilities and service operations in the UK, South Africa and the Seychelles. Builds the systems a business runs on — SOPs, safety programs, vendor relationships, inventory controls and budgets — and manages the teams that execute them. Recently applied the same operating discipline to building and shipping production websites for small businesses.

CORE STRENGTHS

Multi-Site Operations Management • Logistics & Supply Chain • Warehouse & Distribution • Facilities Management
Process Improvement & SOP Development • Vendor & Contract Management • Budgeting & Cost Control • Inventory & Quality Control
Team Leadership & Training • Safety, Risk & Emergency Response • Project Coordination • Fleet Management • Client Relations

PROFESSIONAL EXPERIENCE

Founder / Digital Builder

SuperShift Labs | Quad Cities, IA/IL | 2026 – Present

- Web and digital-services practice serving small businesses in the trades — handling scoping, build, deployment, client communication and ongoing site operations end to end.
- Designed and launched full production websites for two regional roofing contractors — springfieldroofpro.com and oldtownroofing.com — using Next.js, React, TypeScript and Tailwind, from initial structure through live deployment.
- Managed hosting and DNS migration for client domains without interrupting existing business email routing, and resolved deployment and configuration issues post-launch.
- Implemented local-search fundamentals across client sites: structured data and schema markup, on-page SEO, Google Business Profile alignment and conversion-focused service pages.
- Built an AI-driven outreach tool that analyzes a contractor's existing website and generates a written site teardown, automating what had been manual prospect research.
- Uses AI-assisted development throughout the build process — prototyping, troubleshooting, content drafting and research — to compress delivery timelines on client work.

Founder / Operations Manager

GDH Facilities | South Africa | Jan 2015 – Dec 2025

- Directed full-scope operations for a diversified property portfolio, covering facilities management, HR, finance, safety and multi-site oversight.
- Developed and rolled out company-wide SOPs and safety programs, holding compliance across every property and team.
- Owned budgeting, forecasting and reporting, improving financial visibility and the quality of operating decisions.
- Managed long-term client and vendor relationships, protecting service quality and operational continuity.

Founder / Operations Manager

Ababili Adventures | South Africa & International | Mar 2019 – Jun 2024

- Founded and ran a luxury adventure-tour company, owning logistics, supply chain and client experience as lead guide.
- Coordinated end-to-end trip logistics across international itineraries: fleet, accommodation sourcing, route planning and inventory control.
- Led clients through remote environments where risk assessment, contingency planning, communications and fast problem-solving determined the outcome.
- Maintained a zero-incident safety record through rigorous protocols, emergency preparedness and Level 3 First Aid certification.

Operations Manager

Angel Lifestyle | Johannesburg, South Africa | Apr 2011 – Feb 2015

- Ran daily operations for a 107,600 sq. ft. fashion distribution warehouse, covering logistics, inventory accuracy, supply-chain workflows and team performance.
- Raised shipment accuracy through tighter quality controls and continuous SOP refinement.
- Cut order errors by reworking stock processes, strengthening vendor coordination and improving inventory systems.
- Directed warehouse training, scheduling and productivity initiatives, lifting throughput and team performance.

Facilities Manager

Paradise Sun Hotel | Seychelles | Jul 2007 – Dec 2010

- Managed resort-wide facilities, security, maintenance, budgets and safety systems for an 80-room property.
- Led emergency-response teams including firefighting and incident investigation, maintaining full regulatory and safety compliance.
- Introduced new SOPs and facility upgrades that reduced maintenance costs while supporting guest satisfaction.

Assistant Manager

Barden Tyre Willow Glen | Pretoria, South Africa | May 2003 – Jun 2007

- Supervised workshop operations, inventory, staff training and service workflows for a high-volume retail location.
- Reduced inventory discrepancies through improved cycle counting and stock-control procedures.
- Coordinated vendor relationships and service-delivery improvements.

Assistant Warehouse Manager

Towerhill Clothing | London, UK | Sep 1999 – Mar 2002

- Oversaw retail distribution operations including receiving, allocation, order processing and multi-channel fulfillment.
- Improved order fulfillment times through workflow optimization and process standardization.
- Directed team training and scheduling while maintaining inventory accuracy.

TECHNICAL SKILLS

Business Systems: QuickBooks, ERP systems, inventory management systems, logistics platforms, Excel, Word, PowerPoint

Documentation: SOPs, process maps, requirements definition, operational documentation, project briefs and business proposals

Web Development: Next.js, React, TypeScript, Tailwind CSS; responsive site builds and front-end implementation

Data & Backend: Supabase, Postgres, authentication, storage, structured data, reporting

Web Operations: Vercel, DNS configuration, domain migrations, hosting environments, email routing, site troubleshooting

AI & Automation: AI-assisted development and workflow design, prompt engineering, automated research and content generation, rapid prototyping

Search & Digital: On-page SEO, schema markup, Google Business Profile, local search, landing pages

EDUCATION & CERTIFICATIONS

Business Management Diploma (NQF Level 5) — South African Institute of Management | 2010–2012
